Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- Food technology specialists use industrial processes to transform raw materials into food and drink.
- During your training, you will learn processes such as separating, mixing, grinding, shaping, heat treatment and cooling. You will process raw materials according to specified recipes and enhance them with auxiliary substances and additives such as flavourings, binding agents, colourings and vitamins. You will also control and monitor the processing and packaging equipment. Strict safety and hygiene regulations apply to all stages of the process. You will therefore check the quality of the products, take samples and analyse them in the laboratory. During the production process, you will check the foodstuffs for quality, appearance, smell, taste and Packing.
- Once you have completed your apprenticeship, you will have access to numerous opportunities for further training and a wide range of career prospects in the food industry, both at home and abroad.

What you bring with you

- Completed primary school
- Enjoyment of working with food and modern production facilities
- A keen sense of smell and taste, and a meticulous approach to work
- Willingness to start work early

What we offer

Work-life balance
We offer 35 vacation days so that you have enough time to recover and are then fit for work and school again.

Catering
Catering is very important to us: you can enjoy freshly prepared food in our staff canteen, a lunch menu including soup and salad, water & tea and free fruit as well as high-quality products at greatly reduced prices in our outlet.

Mobility
Benefit from convenient public transport connections, attractive ticket subsidies and ample parking facilities in the multi-storey car park.

Professional development opportunities
We cover the costs of tuition fees and study materials, and contribute CHF 700 towards a laptop of your choice. We also offer you exciting prospects for continued employment in an international environment once you have completed your studies.
