Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- In this profession, you will work in mechanical and technical fields. Thanks to their wide-ranging training, specialists in this profession are highly versatile.
- Drilling, turning, milling and grinding, shearing, edging, bending and punching, screwing, soldering, riveting and welding. You'll learn these machining and joining techniques – and much more besides – during your varied training. With this knowledge, and with the help of production documents and technical drawings, you will lay the foundations for manufacturing and repairing precision equipment and machine parts from metals and plastics. You will also be able to join these individual parts together or fabricate entire steel structures. Another area of responsibility you can expect is computer-controlled tool sharpening. You will then use measuring instruments to check the quality of the parts. Finally, you will also receive intensive training in occupational health and safety.
- Once you have successfully completed your apprenticeship, you will have good prospects on both the domestic and international labour markets.

What you bring with you

- Completed primary school
- Enjoyment of working with your hands and using machines
- Technical and practical understanding, as well as spatial awareness

What we offer

Work-life balance
We offer 35 vacation days so that you have enough time to recover and are then fit for work and school again.

Catering
Catering is very important to us: you can enjoy freshly prepared food in our staff canteen, a lunch menu including soup and salad, water & tea and free fruit as well as high-quality products at greatly reduced prices in our outlet.

Mobility
Benefit from convenient public transport connections, attractive ticket subsidies and ample parking facilities in the multi-storey car park.

Professional development opportunities
We cover the costs of tuition fees and study materials, and contribute CHF 700 towards a laptop of your choice. We also offer you exciting prospects for continued employment in an international environment once you have completed your studies.
