

Plant Mechanic Meat Production (100%)

Join our close-knit technical team in the meat production department (slaughterhouse/cutting plant). The plant engineering team is responsible for ensuring the availability of all technical systems and infrastructure within the company, with the aim of enabling smooth Production. All maintenance work, as well as minor and major repairs, is carried out in-house. Refurbishment work or modifications to technical systems are undertaken on various scales, from planning through to implementation and documentation.

What we offer

Work-life balance
A healthy work-life balance is important to us. You benefit from at least 25 vacation days as well as transparent electronic time tracking. This allows you to flexibly compensate any overtime with additional time off.

Catering
Catering is very important to us: you can enjoy freshly prepared food in our staff canteen, a lunch menu including soup and salad, water & tea and free fruit as well as high-quality products at greatly reduced prices in our outlet.

Mobility
Benefit from convenient public transport connections, attractive ticket subsidies and ample parking facilities in the multi-storey car park.

Professional development opportunities
Expand your knowledge with extensive training programmes, high-quality courses at the Coop Training Centre and a wide range of personal development opportunities.
