Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- Maintaining and setting and ensuring the operational safety of all energy supply systems (energy center, compressor stations, well and pumping systems, etc.).
- Maintenance and inspection work as well as troubleshooting and fault rectification on ventilation and air conditioning systems in the production area
- Coordination of various external companies with regard to maintenance and servicing of the systems
- Maintenance and updating of system documentation (system logs, creation of diagrams, maintenance orders, etc.)

What you bring with you

- Completed vocational training as a gas, water and heating fitter or in a comparable field
- Strong technical understanding and interest
- Skilled craftsmanship
- Independent, solution-oriented way of working
- Dedicated personality with time flexibility
- High degree of reliability and quality awareness
- Working 24/7 on-call duty (1 week per month)

What we offer

Catering

Catering is very important to us: you can enjoy freshly prepared food as well as high-quality products at greatly reduced prices in our canteen and at 'Hubers Genusswelt'.

Professional development opportunities

Expand your knowledge with extensive training programmes and a wide range of personal development opportunities.

Mobility

For those who prefer to travel by car, we offer ample parking spaces and/or our own multi-storey car park.
