Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- The manufacture of fresh products to recipe is one of your main responsibilities
- Monitoring production processes in food manufacturing will form part of your daily routine
- Compliance with and implementation of HACCP, IFS guidelines and quality standards
- Operating machinery and equipment in food production
- You will also support your colleagues in developing recipes and production processes

What you bring with you

- You have completed an apprenticeship as a chef (m/f/d), a food technology specialist (m/f/d) or hold a comparable qualification
- Initial experience in food production, catering or food processing would be an advantage
- You are characterised by an independent and structured approach to your work
- A commitment to quality and a sense of responsibility come naturally to you

What we offer

Work-life balance
You benefit from 30 days of vacation, a flexible working hours system, and special leave for important personal events such as marriage, the birth of a child, or moving house. In addition, you have time off on December 24 and December 31.

Catering
We offer you free water, coffee, and fruit. In addition, there is a free employee breakfast once a month. You can also purchase our high-quality products at greatly reduced prices in our company shop.

Health
Your well-being is important to us: take advantage of our health management program and regular check-ups with our company doctor!

Company events
Experience unforgettable moments at our company events – celebrate and socialise together!
