

SAP PM Consultant

Are you looking for a new position where you can contribute your SAP expertise and at the same time have plenty of room for creativity? With us, you can expect a team of 10 that not only emphasises technical excellence, but also genuine team spirit. We work hand in hand, support each other and give you the opportunity to develop your skills in exciting projects. In your new role, you will take responsibility for our SAP PM & FSM modules - from process analysis to customising and release management. You will be right in the middle of challenging project phases that require organisational talent, strong communication skills and a love of design. ☐

Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- You develop, test and implement new or modified business processes in SAP PM & FSM and ensure that they fit into the organisation.
- Together with your colleagues, you will analyse and optimise processes and interfaces - always with a view to finding efficient solutions.
- You formulate assignments in the PM & FSM consulting environment and actively support the achievement of objectives.
- You are jointly responsible for our SAP products (SAP PM & FSM), including release management.
- You bring recommendations from SAP or other partners into our landscape and implement them.
- As part of our project team, you will be actively involved in SAP projects and contribute to achieving our goals.
- You will provide 2nd level support and help with the creation of test cases.

We can only consider applicants who are authorised to work in Switzerland (EU/EFTA). We only consider direct applications.

What you bring with you

- Several years of experience with SAP S/4HANA ERP or ECC 6.0 as well as sound knowledge of SAP PM - ideally supplemented by FSM, MM or PP.
- A good understanding of logistics processes and their mapping in SAP.
- Experience in IT projects, from business analysis to customising.
- Enjoy analysing, critically questioning and pragmatically improving business processes.
- Strong communication skills, organisational talent and the ability to contribute objectively and clearly even in complex situations.
- Very good written and spoken German and English; other languages are a plus.
