Your tasks

 You develop, test and implement new or modified business processes in SAP PM & FSM and ensure that they fit into the organization.

Language

- Together with your colleagues, you analyze and optimize processes and interfaces always with a view to finding efficient solutions.
- You formulate assignments in the PM & FSM consulting environment and actively support the achievement of objectives.
- You are jointly responsible for our SAP products (SAP PM & FSM) including release management.
- You bring recommendations from SAP or other partners into our landscape and implement them.
- As part of our project team, you will actively participate in SAP projects and contribute to achieving our goals.
- You will provide 2nd level support and help with the creation of test cases.

We can only consider applicants who are authorised to work in Switzerland (EU/EFTA). We only consider direct applications.

What you bring with you

- Multi-year experience with SAP S/4HANA ERP or ECC 6.0 as well as sound knowledge of SAP PM - ideally supplemented by FSM, MM or PP.
- A good understanding of logistics processes and their mapping in SAP.
- Experience in IT projects, from business analysis to customizing.
- Enjoy analyzing, critically questioning and pragmatically improving business processes.
- Strong communication skills, organizational talent and the ability to contribute objectively and clearly even in complex situations.
- Very good written and spoken German and English skills; other languages are a plus.
