Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- Maintenance, repair and servicing of production lines, packaging machines, sorting systems, conveyor systems and more.
- Effective troubleshooting and carrying out repairs during production operations.
- Regular inspections and preventive maintenance to ensure system availability.
- Documentation of all maintenance and repair work in our maintenance software.
- Support with the optimisation and improvement of our equipment.
- Fabrication of special parts or small batches as required.
- Compliance with all safety regulations and maintaining order in the workplace.

What you bring with you

- A completed apprenticeship as a polymechanic (EFZ) specialising in maintenance, a production mechanic, or a comparable technical qualification.
- Ideally, professional experience in the maintenance of production plant (experience in the food industry is an advantage).
- Sound knowledge of mechanics, pneumatics and electrical engineering (machining is a plus).
- Ability to work independently, reliably and as part of a team.
- Good written and spoken German.
- Willingness to work shifts (including weekends and night shifts).
- We offer a role working on a 3-shift rota, which allows for flexible working hours. The shifts include early, late and night shifts, as well as occasional weekend work.

What we offer

Catering

Culinary delights are very important to us: Freshly prepared salads, soups, tea and fruit are available to our employees free of charge. You can also take home products from the staff shelf every day.

Professional development opportunities

Expand your knowledge with extensive training programmes, high-quality courses at the Coop Training Centre and a wide range of personal development opportunities such as mentoring and coaching.
