

Production Performance Manager

Make our processes smarter - and show how far you can go when you think ahead! At the Hilcona Taste Factory - our heart of vegan innovation - we drive change every day. If you don't just manage processes, but want to improve them. If you love efficiency, avoid stagnation and prefer to think outside the box rather than getting stuck in the familiar - then you belong with us. Let's work together to make processes smarter and shape the future of food production

Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- Question existing processes on site in production, analyze weak points and develop solutions that make an impact
- Optimize production and support processes and increase efficiency, quality and speed
- Identify deviations at an early stage based on daily KPIs and derive specific, sustainable improvement measures
- Support teams in implementing new processes and create clarity, structure and understanding
- Bring together the interests of the specialist departments and optimize the process chain holistically
- Measure and evaluate the success of your measures and use the findings for the next steps

What you bring with you

- Training and experience in the food industry
- Experience in the implementation of improvement projects, process optimization, lean management or similar
- A personality that looks, questions and actively drives change
- Analytical thinking, structured way of working and strong communication skills
- Confident handling of IT systems (such as MS Office, ERP, etc.)
