

Automation technician (100%)

Automation ensures the reliable availability and further development of our technical plants and systems and thus forms an important basis for smooth production and logistics operations. You will look after modern automation and server systems, support projects from optimisation to the integration of new systems and work closely with Production, Technology and IT. If you are enthusiastic about technology, enjoy taking on responsibility and are looking for a varied job in a committed team, you will fit in perfectly with us.

Bell Schweiz AG
Zelgmatte 1
6144 Zell

Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- Supporting and ensuring the technical availability of the automation systems at the Zell site in the areas of Production, Logistics and Building Services / Infrastructure
- Support and further development of the higher-level server systems in the automation and operational technology environment (HMI, SCADA, PLS, Data Historian, MES, WMS)
- Willingness to work from 5.00 am to 10.00 pm
- Interface function between users, IT, technology and suppliers
- Implementation and support of automation projects (e.g. optimisation, adaptation, expansion, modernisation) on plants and systems
- Integration of plants, systems and components into the structure of the Bell Group
- Supporting the commissioning and production support of highly complex systems
- Contributing your expertise to provide technical support to the various maintenance and project teams

What you bring with you

- Completed training as a technician, preferably with prior training as an electrician, electronics technician, automation technician or computer scientist
- Professional experience in programming and commissioning PLC and visualisation systems, such as Siemens S7 (Step 7 Classic / TIA Portal) and WinCC, as well as in field bus systems such as ProfiNet etc.
- You have a very good command of written and spoken German, English is an advantage
- Experience with IT systems (Windows client, server, networks)
- Experience in the implementation and coordination of automation projects
- Experience with MES or WMS systems is an advantage

What we offer

Work-life balance

With us you benefit from at least 25 vacation days. We use an electronic time capture system so that you can reward your overtime with additional days off.

Catering

Catering is very important to us: you can enjoy freshly prepared food in our staff canteen, a lunch menu including soup and salad, water & tea and free fruit as well as high-quality products at greatly reduced prices in our outlet.

Mobility

Benefit from convenient public transport connections, attractive ticket subsidies and ample parking facilities in the multi-storey car park.

Professional development opportunities

Expand your knowledge with extensive training programmes, high-quality courses at the Coop Training Centre and a wide range of personal development opportunities.
