## Apply online

You can find all the details online as well as the opportunity to apply directly.

## Your tasks

- You will learn to master all technical challenges on our wide range of modern machines and systems and are guaranteed to be at the cutting edge of technology by the end of your training - whether it's planning, installing or maintaining mechanical systems.
- You can also look forward to the right amount of expertise in troubleshooting.
- And last but not least, you can refine your educational mix by turning and milling your own machine components.
- In this way, we ensure that not only does everything run like clockwork in our Production department, but also your start to your professional life.

## What you bring with you

- At least a good secondary school leaving certificate
- Vocational school for metal is creditable (start in the 2nd year of apprenticeship possible)
- Technical understanding, spatial thinking and manual dexterity
- Interest in mechanics
- Reliability and diligence

## What we offer

### Work-life balance

We offer 30 vacation days, a flexitime system and special leave for important events such as marriage and relocation. In addition, you will receive two hours of personal study time per week as well as guaranteed post-apprenticeship employment in accordance with the collective labour agreement. In addition, you do not work on 24 December and 31 December.

### Professional development opportunities

Expand your knowledge with extensive training programmes, high-quality courses at the Coop Training Centre and a wide range of personal development opportunities such as mentoring and coaching.

### Company events

Experience unforgettable moments at our company events – celebrate and socialise together!

### Fair wages and social benefits

You will also enjoy our corporate benefits (discounted online shopping offers) and a company pension scheme. We also cover the costs of your study materials and exam preparation courses.
