Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- The repair and installation of machines and systems is one of your main tasks
- Maintenance, inspection, servicing and repair work on production machines will be part of your daily routine
- Optimisation of production processes
- You will be responsible for troubleshooting electrical systems
- Mechanical repairs

What you bring with you

- You have completed training as a mechatronics technician (m/f/d) or a comparable qualification in the relevant field
- Initial knowledge of conveyor and packaging systems is an advantage
- A skilful handling of the MS Office palette is a matter of course for you
- You are characterised by a careful and independent way of working with the courage to take initiative
- You enjoy working in a lively, fresh environment and are not afraid to critically scrutinise processes

What we offer

Work-life balance
You benefit from 30 days of vacation, a flexible working hours system, and special leave for important personal events such as marriage, the birth of a child, or moving house. In addition, you have time off on December 24 and December 31.

Catering
We offer you free water, coffee, and fruit. In addition, there is a free employee breakfast once a month. You can also purchase our high-quality products at greatly reduced prices in our company shop.

Health
Your well-being is important to us: take advantage of our health management program and regular check-ups with our company doctor!
