Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- You will help analyse, optimise and further develop SAP FI/CO processes and actively contribute your ideas
- Together with the business departments, you will develop suitable solution concepts and oversee their implementation
- You will be involved in the maintenance and further development of SAP applications and will assist with fault analysis and improvement measures
- Your responsibilities will also include creating and maintaining documentation, as well as conducting tests and user training sessions
- On SAP-related projects, you will work closely with internal and external partners as well as experienced SAP consultants
- You will help optimise existing processes and contribute to the ongoing development of our finance and controlling landscape

We can only consider applicants who are authorised to work in Switzerland (EU/EFTA). We only consider direct applications.

What you bring with you

- You have a degree in business administration or equivalent qualification with a focus on finance, management accounting or business informatics
- Basic knowledge of SAP FI/CO, as well as an interest in other SAP modules and digital business processes, would be an advantage
- Ideally, you will have gained some initial experience with IT tools or in process optimisation
- Your approach to work is characterised by organisation, accuracy and a strong willingness to learn
- As a communicative and team-oriented person, you find it easy to work with a variety of stakeholders
- Very good German and good English skills round off your profile
