Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- take on tasks and responsibilities in the fields of electrical engineering/electronics, control and information technology, and mechanics
- carry out the maintenance and servicing of complex systems and machinery, including fully automated high-bay warehouses
- programme computer-controlled systems and install their software and hardware
- gain an understanding of drilling, turning, milling and (electro-)pneumatics
- The apprenticeship starts on 1 September 2027
- The training programme is organised through a structured training plan covering all relevant Departments
- The designated vocational school is the Hohentwiel Vocational School in Singen
- The apprenticeship lasts 3.5 years

What you bring with you

- At the start of the apprenticeship, you will have completed secondary school (Realschule/Mittlere Reife) or the Abitur with good marks in the core subjects
- You are interested in mechanics, electrical engineering and electronics, as well as computer science
- You enjoy working with your hands on technical equipment, machinery and systems
- You have a good command of English
- You are characterised by your attention to detail, commitment, reliability, ability to work independently and your ability to work as part of a team

What we offer

Work-life balance
More than 30 days off per year and flexible working hours on a 4.5 day week mean you can start the weekend early.

Mobility
Thanks to our travel allowance, good public transport connections and plenty of parking spaces for cars and bicycles, our employees can travel easily.

Professional development opportunities
The highlight is the period spent working abroad, and you can also expect regular meetings with short training sessions, independent projects and a job guarantee (at least six months).

Health
All employees have the opportunity to take advantage of sports, leisure and wellness programmes throughout Germany with HANSEFIT.
