Apply online

You can find all the details online as well as the opportunity to apply directly.

Your tasks

- Monitoring and maintenance of HVAC and refrigeration systems
- Coordination and execution of maintenance work in collaboration with the technical department and external contractors
- Providing support and advice on projects relating to HVAC and refrigeration systems
- Involvement in the procurement of spare parts, analysis of quotations, and checking of orders and invoices
- Troubleshooting, general upkeep and maintenance of machinery and systems
- Technical modifications and adaptations to machinery
- Commissioning of new systems

What you bring with you

- Holder of a CFC in the healthcare sector, as a heating engineer, automation engineer, or equivalent in the refrigeration sector
- Several years' experience in industrial maintenance (mechanical, electrical, hydraulic, pneumatic, etc.)
- Proven experience in the HVAC sector
- Ability to work both independently and as part of a team
- Good organisational skills and a proactive approach
- Excellent communication and problem-solving skills
- Fluency in French; a good knowledge of German would be an advantage

What we offer

Work-life balance

A healthy work-life balance is important to us. You benefit from at least 25 vacation days as well as transparent electronic time tracking. This allows you to flexibly compensate any overtime with additional time off.

Catering

Catering is very important to us: you can enjoy freshly prepared food in our staff canteen, a lunch menu including soup and salad, water & tea and free fruit as well as high-quality products at greatly reduced prices in our outlet.

Mobility

Benefit from convenient public transport connections, attractive ticket subsidies and ample parking facilities in the multi-storey car park.

Professional development opportunities

Expand your knowledge with extensive training programmes, high-quality courses at the Coop Training Centre and a wide range of personal development opportunities.
